# **Washington Township ADULT EDUCATION**

The main purpose of Washington Township Adult Education is to provide education, career training, and special interest classes to build the skill set, health, and wellness of the surrounding adult community.

Our goal is to expand the economic interest of all adults by creating and reinforcing a strong academic foundation leading to training and post-secondary opportunities. Classes are structured to fit adult schedules and responsibilities by providing options for different times, days, locations, and distance learning to move more quickly through the curricula.

## The High school Equivalency Exam

**Indiana offers adults the opportunity to earn a state accredited High School Equivalency Diploma by successfully passing the HiSet Exam, and Washington Township Adult Education offer testing times Monday through Friday. The HiSet exam is similar to the GED exam in that applicants must meet a minimum score on five different subject sections including Math, Language Arts, Reading, Science, and Social Studies.**

## Our Programs

### Adult Basic Education Classes

Adult Basic Education (ABE) is a learning program to help adults refresh and improve academic skills needed to prepare for college, enroll in career training, help children with homework, prepare for the High School Equivalency (HSE) test, or review content before entering the workforce. Classes are open to all adults, regardless of academic level.

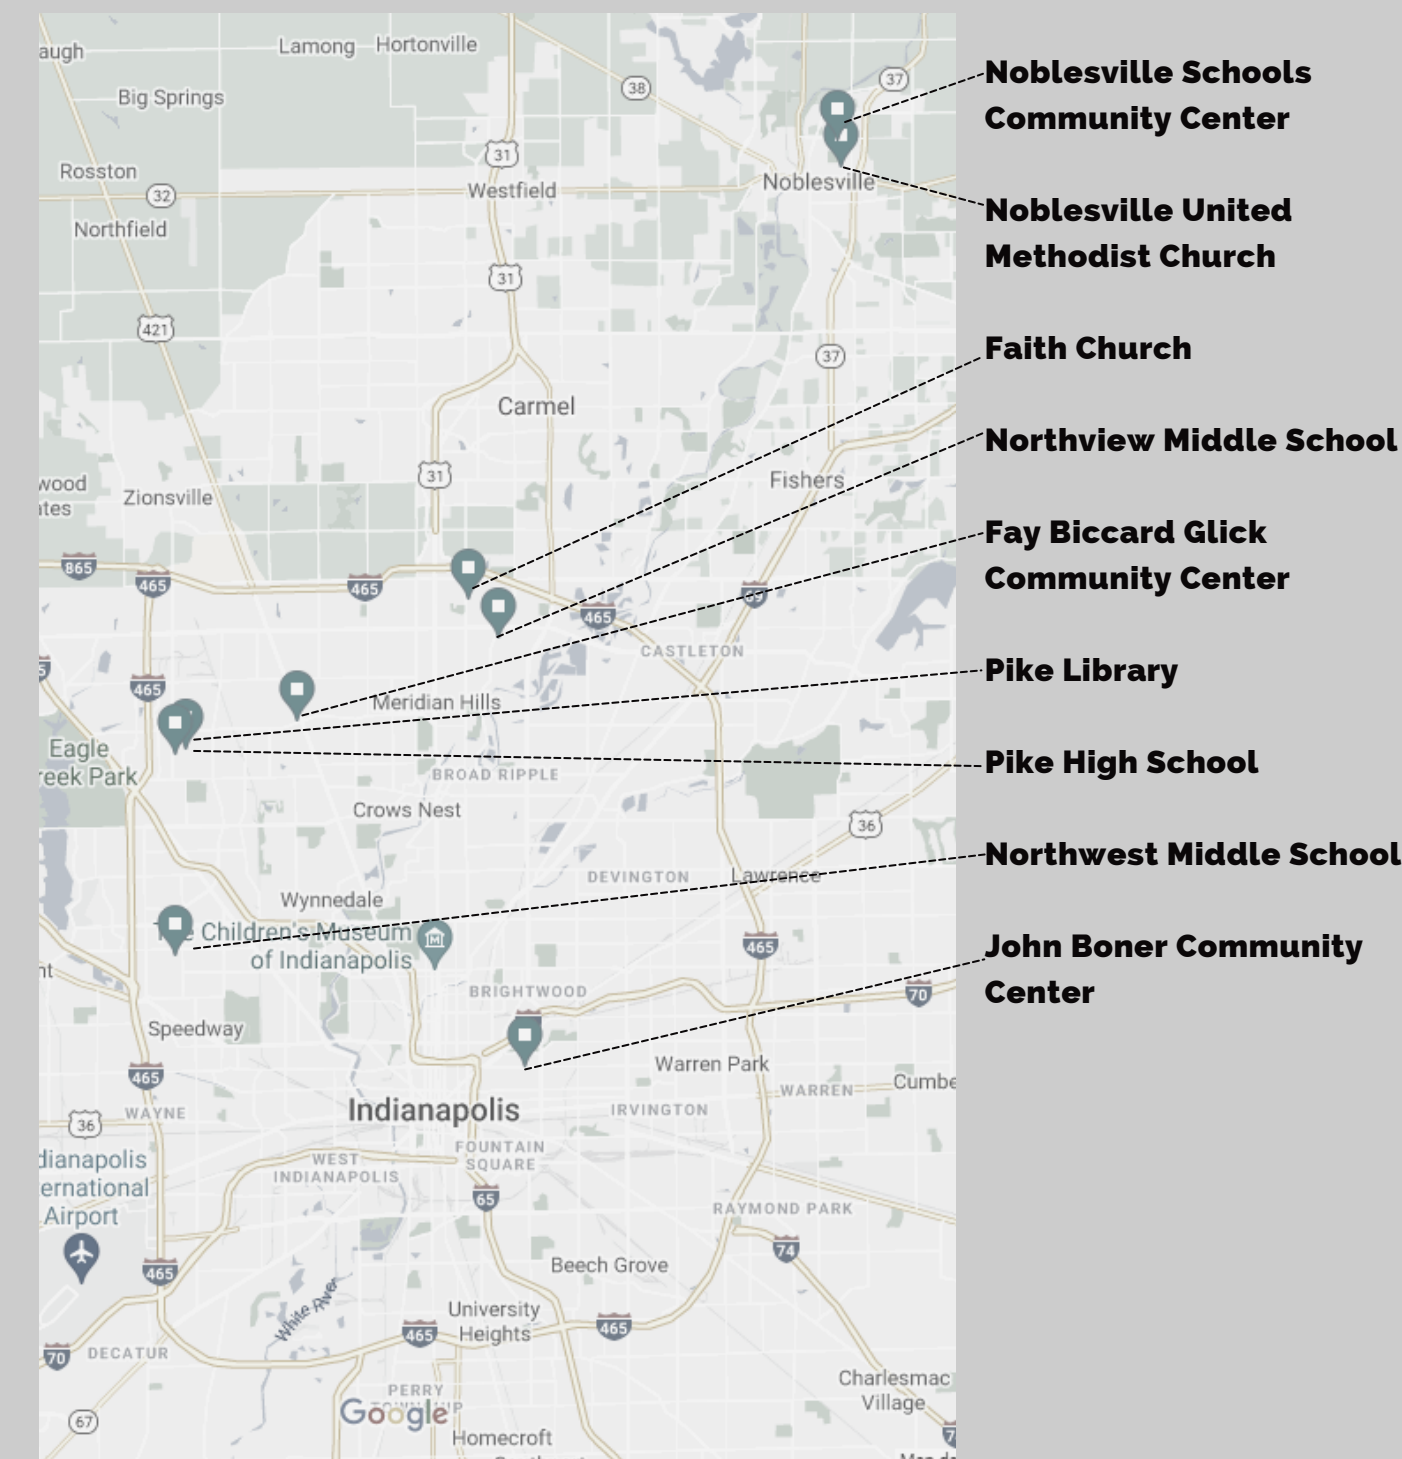

### English Language Classes

English Language Acquisition classes offer instruction for non-native English speakers, providing the students with the skills necessary to improve their reading, writing, listening, and speaking skills. Students are able to enroll in evening or day classes and are provided access to on-line learning opportunities in addition to classroom instruction by a licensed teacher. Classes are open to all adults, regardless of English level.

### Career Training

Career training programs allow you to develop your professional and technical skills. From dental assisting and medical interpreting to truck driving and construction (OSHA), we offer a larger range of trainings in many fields.

**We offer classes all over  
the Indianapolis metro area.
