

IT Security Specialist *(CompTIA Security+)*

Washington Township Adult Education

In Partnership with MedCerts - online

Program Description

In only 12 weeks (192 hours) through the IT Security Specialist Certification program at MedCerts, you could find yourself starting your career as an IT Security Specialist. In the IT Security Specialist Online Classes, you'll explore comprehensive courses like Microsoft Office Series III and Security +. The extensive IT Security Specialist Training will provide you the knowledge needed to gain the CompTIA Security+ certification. The IT Security Specialist online program is a targeted course for Information Technology (IT) professionals like you who have networking and administrative skills in Windows-based TCP/IP networks, as well as familiarity with a variety of operating systems, including OS X, Unix, or Linux, and want to further your career in IT by acquiring a foundational knowledge of security topics; prepare for the CompTIA Security+ Certification examination; or use Security+ as the foundation for advanced security certifications or career roles.

People with the Security+ certification can perform the following tasks.

- Assess security risks and identify potential threats to hardware, software, and physical location
- Conduct risk mitigation for systems, hardware and peripherals
- Implement best practices and procedures for host and OS hardening
- Utilize best models for authentication, identity management, and access control
- Implement disaster recovery procedures and security contingency plans
